Total	101%	100%	100%	100%	101%	100%	100%	0%
(Unweighted N)	(1480)	(1030)	(132)	(84)	(119)	(8)	(87)	(20)

Survey Methodology

This survey was designed and conducted by College Pulse. Interviews were conducted in English among a sample of 1501 undergraduate students who are currently enrolled in the U.S.

The initial sample was drawn from College Pulse's Undergraduate Student Panel that includes over 240,000 verified students representing more than 800 different colleges and universities in all 50 states. Panel members are recruited by a number of methods to help ensure diversity in the panel population, including web advertising, permission-based email campaigns, and partnerships with university organizations.

To reduce the effects of any non-response bias, a post-stratification adjustment was applied based on demographic distributions from the 2017 Current Population Survey (CPS). The post-stratification weight rebalanced the sample based on the following benchmarks: age, race and ethnicity, and gender. The sample weighting was accomplished using an iterative proportional fitting (IPF) process that simultaneously balances the distributions of all variables. Weights were trimmed to prevent individual interviews from having too much influence on the final results.

The margin of error for this survey is $\pm 2.9\%$. Margins of error are typically calculated on probability-based samples and are not technically correct for non-probability online samples. We supply them here to provide a general assessment of error ranges that may be associated with the data.

11/08/19: Daily Q's poll

November 2019 - 1501 US college students

About College Pulse

College Pulse is an online survey and analytics company dedicated to understanding the attitudes, preferences, and behaviors of today's college students. College Pulse offers custom data-driven marketing and research solutions, utilizing its unique Undergraduate Student Panel that includes 240,000 undergraduate college student respondents from more than 800 four-year colleges and universities in all 50 states.
